

PROTECT YOUR NEW ASPHALT

Especially During the **HOT SUMMER**

DO NOT

- Turn wheels when car is not moving.
- Engine oil will be very damaging to new driveways.
- Do not park on paved edge.

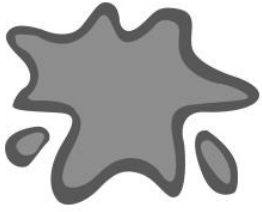

DO NOT

- Fast stops and starts can ruin new asphalt.

DO NOT

- Asphalt sealer should not be used on new asphalt.
- Wait at least 60-90 days.

DO NOT

- Spill gas on driveway.

DO

- Rest ladder supports on block of wood to prevent indents in new asphalt.

DO

- Put a wooden block under kickstand of motorcycle.

DO

- When parking any kind of trailer on driveways, make sure trailer hitch is supported on good size block of wood.
